## Your Shared Air Turnkey Solution

pathogens • allergens • chemical pollutants • airborne particles • odors

South Coast Improvement Company has partnered with Global Plasma Solutions (GPS) & Nu-Calgon to streamline optimization of your facility’s indoor air quality (IAQ) – an issue of increasing importance across nearly all industries today. Together we bring your facility a fast, efficient, effective, sustainable and affordable turnkey shared air solution...

### Healthier Shared Air

Based on needlepoint bi-polar ionization technology, the iWave Technology by GPS & Nu-Calgon creates ions that circulate into conditioned space to mitigate pathogens, airborne particulates, allergens, chemical pollutants and odors.

### Efficient, Effective Technology

The patented iWave NPBI technology safely and economically handles a wide array of indoor air quality issues while reducing carbon footprint and saving energy.
