Construction • Renovation

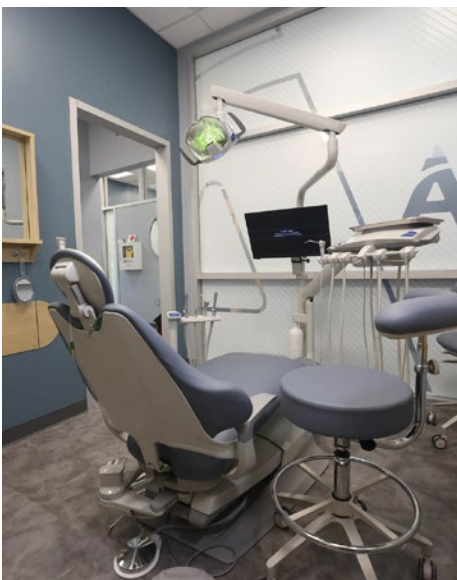

**Partnering  
with The  
Aspen Group**  
on the construction of  
a new Aspen Dental  
facility that's functional  
& welcoming for  
patients & staff alike.

## Aspen Dental

Killingly, Connecticut

South Coast Improvement Company was awarded the construction of a new Aspen Dental facility in Killingly, CT. The existing 3,500 S.F. space was transformed into a fully functional dental practice. Renovations encompass new exam rooms, bathrooms, X-ray rooms, reception areas, offices, labs, and waiting rooms. South Coast Improvement worked diligently to meet the requirements of The Aspen Group and deliver a welcoming and efficient environment for patients and staff alike.

### Scope of Work -

Our team performed comprehensive interior renovations including rough and finish carpentry, framing and installation of new walls and doors, and the integration of new flooring, paint, and acoustical ceiling tiles. The project also includes extensive mechanical, electrical, and plumbing upgrades to meet the specialized requirements of dental operations. Each component was executed with precision to support both the clinical and comfort-driven needs of the facility.

### Key Features -

From durable, metal framing to custom finishes and specialized dental equipment installations, every detail of this project is designed for performance and longevity. We coordinated closely with The Aspen Group and design team to ensure seamless integration of medical-grade HVAC systems, electrical infrastructure for advanced dental equipment, and finishes that meet healthcare standards. The result is a state-of-the-art dental space that reflects Aspen Dental's commitment to patient care and quality.
