### Project Overview:

In partnership with the Town of Norwell, we led the renovation of Norwell Town Hall, transforming an existing two-story commercial office into a modern, efficient, & welcoming space for both staff and the community. This project demonstrates our expertise in interior office renovations and our commitment to enhancing working environments through thoughtful design, quality craftsmanship, & sustainable construction practices.

### Scope of Work:

- Creation of a new amenity space for staff and visitors.
- Selective demolition & moisture mitigation.
- Installation of new partitions, ceilings, lighting, ductwork, and custom millwork.
- Integration and reuse of existing systems to support efficiency and sustainability.
- Updated furniture, fresh paint, and refined interior finishes.
- Replacement of exterior building signage.

### Project Impact:

The completed renovations provide an improved workplace that prioritizes functionality, comfort, & long-term performance. Through close collaboration with the Town of Norwell, our team delivered a space that reflects community pride and operational excellence.

Expertly transforming existing office spaces into efficient, high-performing workplaces.
