Livingston, New Jersey

Resident Room Turns & Interior Renovations within an Occupied Healthcare Community.

South Coast Improvement Company partnered with CareOne to complete interior renovations and resident room turns at the Livingston, New Jersey community. The work refreshed resident spaces and key interior areas while supporting the daily needs of an active healthcare environment. Careful coordination, phased execution, and attention to resident safety allowed improvements to advance while maintaining ongoing facility operations.

Renovation Highlights:

Resident Room Turns:

Interior refreshes included new flooring, paint and finish upgrades, casework and resident-room improvements.

Bathroom & Accessibility

Upgrades: Updated resident bathrooms incorporated durable finishes, fixtures and grab bars to support safety and accessibility.

Interior Finish Improvements:

Targeted upgrades refreshed high-use areas with coordinated finishes and functional improvements.

Execution Excellence

Strategic Phasing:

Work was sequenced to maintain facility operations and limit disruption to residents and staff.

Occupied Renovation Expertise:

Construction activities were managed around an active healthcare setting with a focus on cleanliness, access and safety.

Trusted CareOne Partnership:

SCIC brings repeat-client experience and a consistent approach to occupied renovations across CareOne communities.
