

CareOne at River Glen

CareOne

Southbury, CT

Comprehensive
Interior Renovation
Across a 55,000 SF
Occupied Healthcare
Facility.

South Coast Improvement Company completed a comprehensive renovation program at River Glen, transforming resident, clinical and shared spaces throughout the two-story and basement, approximately 55,000-square-foot facility. The work refreshed high-use areas while supporting ongoing operations in an active healthcare setting. Improvements included new finishes, lighting and ceilings; reconfigured dining and community spaces; upgraded nurse stations and millwork; refreshed resident rooms and baths; and targeted PT/OT, staff and support-space renovations.

Renovation Highlights:

Facility-Wide Refresh:

New flooring, wall finishes, ceilings, lighting and finish upgrades across common areas and resident-focused spaces.

Resident Rooms & Baths:

Updated hardware, Corian window sills, ceramic tile, low-flow plumbing fixtures and coordinated electrical finish upgrades.

Clinical & Community Spaces:

New millwork at nurse stations; refreshed dining, lounges, tub/spa areas, staff spaces and a community/training kitchen.

Execution Excellence

Occupied Healthcare Expertise:

Work was planned around an operating care environment, with attention to resident, staff and clinical circulation.

Detailed Interior Modernization:

Scope included replacement ceilings, lighting, signage/wayfinding, flooring transitions, wall finishes and selected doors/hardware.

Programmed Space Reconfiguration:

Reception, family lounge, dining, PT/OT, beauty, medication records, offices and staff areas were reconfigured or refreshed to support daily operations.
