

The Fairmont by Barclay House

QSL Management

Manassas, Virginia

A refreshed senior living environment designed to elevate everyday spaces while supporting comfort, connection, and the resident experience.

PROJECT HIGHLIGHTS

Common Area Refresh

Updated resident-facing spaces shown in the completed project photography, including dining, lounge, corridor and gathering areas.

Interior Finishes

A cohesive palette of new flooring, fresh paint, decorative lighting, millwork and cabinetry creates a brighter, more contemporary environment.

Amenity Details

Built-in service and beverage areas, storage, countertops and upgraded furnishings support both daily operations and resident use.

EXECUTION EXCELLENCE

Occupied Environment

Work was approached with the care and coordination expected in an active senior living community.

Resident-Focused Planning

Phasing and day-to-day coordination help protect access, maintain clean work areas and minimize disruption.

Client Partnership

South Coast Improvement Company brings deep senior living renovation experience and a collaborative approach to every project
